

Study

Dr. Michelle Cloutier from the Connecticut Children's Medical Center and your school are studying why some children get asthma and other children do not get asthma.

Your child may take part in this study

IF:

Your child is 6 years of age or older
AND
Your child is Puerto Rican Latino
AND
Your child lives in Hartford

Your child will receive:

- ✓ Breathing tests
- ✓ A small amount of blood drawn
- ✓ Dust sampling in your home
- ✓ Allergy testing
- ✓ Surveys that ask questions about your child's health, your home environment, and stress and violence in your life.

All testing that is part of the study is free of charge. Your child will receive a gift card as a thank you for your time and help after each visit.

If you are interested in learning more about this study, please sign below and someone from Connecticut Children's Medical Center will call you.

Yes, I am interested in learning more about this study. Please call me:
